To SAN or not to SAN?

That is the **NOT** question.

Novell, **CaminoSoft** and **Compaq** have the answer!

Want to know the difference between a Storage Area Network (SAN) and Network Attached Storage (NAS), and when you may consider using each one? We will discuss the fundamental differences between SAN and NAS solutions, and how each are used. We will also discuss how you can build an automated and centralized storage management system. We will demonstrate Intelligent Capacity Management (ICM) system running on our T-Rex™ Data Management Appliance (Compaq Server) which enables you to "Increase Your Storage Space" and "Reduce Your IT Costs"!
